Order your copy of this lively and charming, six-color, 48-page hardcover picture book – complete with a children’s glossary of legal terms – today!

An excellent communication tool for anyone working with child victims of abuse or neglect in state custody, the story explores the foster care and family court system through the eyes of a brother and sister team experiencing the complicated and confusing process.

With the help of their Court Appointed Special Advocate, they come to realize that the many – sometimes scary – strangers that have recently come into their lives are truly dedicated to finding the best ending to their story.

This book is a special project of Child Advocates, Inc. – Houston’s Court Appointed Special Advocate program – and is endorsed by National and Texas CASA.
